Claims 1-5 and 18-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The rejection is maintained as stated in the paper mailed 5/8/03.

Applicant has amended the claims replacing "transparency" with - - transmittance - -. However, the scope of the claims still can not be determined without considerable speculation or assumption because "transmittance" is not an intrinsic property of materials but instead is measured relative to particular wavelengths of radiation. Applicant also fails to address the issues regarding claim 5 and claims 21 and 22 stated in the office action mailed 5/8/03.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
